PROFESSIONAL SUMMARY

Aspiring Computer Applications graduate with strong foundational knowledge in programming languages including C, Python, HTML, CSS, and MySQL. Experienced in machine learning projects with a focus on logistic regression for fraud detection. Certified in Python for Data Science and Python Programming, seeking an opportunity to apply technical skills and grow professionally in a challenging role.

EDUCATION

Master of Computer Applications (MCA)
SRM Arts and Science College | 2024 - 2026

Bachelor of Science in Computer Science
Einstein College of Arts and Science | 2024
Grade: 7.5 CGPA

Higher Secondary Certificate (HSC)
Schaffter Higher Secondary School | 2021
Score: 74%

Secondary School Leaving Certificate (SSLC)
Schaffter Higher Secondary School | 2019
Score: 59%

CERTIFICATIONS

- Python for Data Science, NPTEL
- Python Programming, Besant Technologies

TECHNICAL SKILLS

- Programming Languages: C, Python, JavaScript
- Web Technologies: HTML, CSS
- Database: MySQL
- Tools: MS Office, Microsoft Excel, Power BI
- Other: Typewriting (Tamil, English)

LANGUAGES

- Tamil
- English

PROJECTS

Machine Learning-Based Loan Approval Prediction System

- Developed a machine learning model using Logistic Regression to predict loan approval status based on applicant details.
- Performed data preprocessing and feature scaling to prepare the dataset for training.
- Built a web application using Python Flask for user input and result display.
- Integrated MySQL to store user information and prediction records.
- Utilized Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Flask, and MySQL for data analysis, model development, visualization, and deployment.

OBJECTIVE

Motivated and detail-oriented MCA student seeking a position to leverage programming and analytical skills, eager to learn new technologies and contribute effectively to organizational goals.
